

Utilization Analysis and, Hiring and Promotion Goals

Section 46a-68-85

Utilization Analysis (UA)

In order to determine if protected groups are fully and fairly utilized in the University's workforce, the number of protected class persons in the workforce of the University must be compared to the availability of such persons for employment. Comparisons between the University's workforce and the availability bases calculated in the preceding section have been conducted by occupational category and significant position classifications for each relevant labor market.

"Utilization Analysis" is a comparison between the race/sex composition of the workforce, by occupational category or job title, and the availability base of such persons in the relevant labor market area. This analysis compares the University's internal distribution of minorities and females to their incidence in the external labor market to determine whether the University is at parity.

"Parity" is a condition where the percentage of the representation of a protected class in the workforce equals the percentage of such persons in the availability base.

"Underutilization" is a condition where the percentage of representation of a protected class in the workforce is less than the percentage of such persons in the availability base for that class.

The University has conducted the utilization analysis for each labor market area on UA Form provided by the "Regulations Concerning Affirmative Action by State Government." Line E of each form yields a conclusion that protected class persons are over utilized, underutilized or at parity, when compared to the availability base of such persons for employment.

Hiring and Promotional Goals

The University has established hiring and/or promotional goals to remedy the underutilization of protected classes identified in the utilization analysis. Hiring goals are established for jobs usually filled through original appointment, and promotional goals are for jobs filled through an internal promotional appointment. The objective of hiring and promotional goals is to reach parity with the availability base of protected groups in relevant labor market areas.

A **goal** is a hiring or promotion objective, which the University must strive to obtain by demonstrating every good faith effort. Goals are set to remedy the underutilization of minorities and women in the workforce and must be established within a time frame designated.

The University has set its goals to be meaningful, measurable, and reasonably attainable. It is important to note, however, that state re-employment lists, SEBAC rights, and union contracts relating to transfers from other agencies are in effect, and the University must consider those candidates for specific vacancies if they qualify.

An analysis of all hiring and promotional goals is distributed on a regular basis to the President, the Vice Presidents, Chief Officers, Deans, Directors, Union Presidents and Minority Committee Chairs, managers, and supervisors. In addition, a summary of the hiring and promotional goals for the current reporting period is posted on the Office for Equity and Inclusion web page at <http://www.ccsu.edu/Diversity>. For future Affirmative Action Plans, a newly formed Office for Equity and Inclusion will handle these plan responsibilities. However, in addition to making every good faith effort to meet the established goals, the University will continue to be committed to a qualified, diverse workforce.

Notes: After consultation with the CHRO reviewer on March 6, 2013, the University has removed all coaching titles out of the faculty category and created a separate EEO category (coaching). A separate analysis was conducted in all numerical sections of the plan.

When new faculty hires have not completed their terminal degrees, they are hired at the instructor level until they obtain the degree required; therefore, after consultation with the CHRO reviewer on March 6, 2013, the instructor category has been consolidated into the Assistant Professor category.

In the 2013 AAP review this section was found to be in compliance with the AA Regulations. After consultation and receipt of technical assistance on June 6, 2014, regarding section 46a-68-40, Utilization Analysis, the category of protective services has been modified solely based on EEO category designation and not numerical analysis. The category of protective services has been taken out of the EEO 7 category and separated into its own category.

In the 2016 submission, ODE, in consultation with CHRO, consolidated the Administrative Assistant analysis into the Clerical All Titles category. For the past four submissions there have been fewer than twenty-five (25) Administrative Assistant positions. In the 2016 submission, there were less than twenty (20). It is unlikely this rank will reach the twenty-five (25) titles or more to warrant a separate analysis.

HIRING AND PROMOTION GOALS

Based on the **Section 46a-68-40, Utilization Analysis**, the University has established the following hiring and promotional goals for the period of August 1, 2021 through July 31, 2022.

EXECUTIVE/ADMINISTRATIVE
