

## **AVAILABILITY ANALYSIS**

### **Section 46a-68-84**

As a preparatory step in determining whether protected classes are fully and fairly utilized in the workforce, Central Connecticut State University conducted an analysis by occupational category to determine the availability base of protected group members for employment. The purpose of the analysis was:

- (1) To examine the job content of each office position and position classification within an occupational category
- (2) To identify a relevant labor market area
- (3) To match each office position and position classification within an occupational category, or, where appropriate, a position classification with the most nearly parallel job title contained in the data source consulted

In calculating availability the following information and data sources were consulted and utilized:

- (1) Employment figures – 2000 Connecticut Occupational Statistics EEO Data.
- (2) Unemployment figures – June 2017, Connecticut Department of Labor Data for Affirmative Action Plans.
- (3) Digest of Educational Statistics – Fall 2015 (all faculty ranks) and 2013-14 (degrees conferred)
- (4) US Dept. Ed. National Center for Education Statistics, IPEDS, July 2012
- (5) Race and sex composition of employees in promotable and/or transferable positions.

**Note:**

After consultation with the CHRO reviewer on March 6, 2013, the University has removed all coaching titles out of the faculty category and created a separate EEO category (coaching) and a separate analysis was conducted in all numerical sections of the plan.

When new faculty hires have not completed their terminal degrees, they are hired at the instructor level until they obtain the degree required; therefore, after consultation with the CHRO reviewer on March 6, 2013 the instructor category has been consolidated into the Assistant Professor category.

In the 2013 AA Plan review this section was found to be in compliance with the AA Regulations. After consultation and receipt of technical assistance on June 6, 2014, regarding section 46a-68-40, utilization analysis, the category of protective services has been modified solely based on EEO category designation and not numerical analysis. The category of protective services has been taken out of the EEO 7 category and separated into its own category.

In the 2016 submission, ODE, in consultation with CHRO, consolidated the administrative assistant analysis into the clerical all titles category. For the past four submissions there have been fewer than 25 administrative assistant positions. In the 2016 submission, there were less than 20. It is unlikely this rank will reach the 25 titles or more to warrant a separate analysis.

In the 2016 AA Plan review, the CHRO reviewing noted the following: The CHRO and CCSU will review, during the reporting period, faculty to determine if analyzing by discipline (ex. English disciplines) will be a more precise analysis and enhance goal setting. 2017 AAP update: CCSU does not presently have faculty data by discipline which has hindered our ability to conduct a thorough analysis. During this upcoming reporting period, the Office of Diversity and Equity in partnership with the Employee Advisory Committee will work to determine an availability base by discipline. This information will allow the University to conduct an analysis.

FACTOR:	SOURCE CONSULTED:	BASIS OF SELECTION: GEOGRAPHICAL AREA/JOB TITLE:	REASONS FOR WEIGHTING THE FACTOR:
<b>Employment data in the Applicable Labor Market Area</b>	Census 2000 EEO Data Tool, CT Total, Post Secondary Teachers (251000)	The hiring area is nationwide for this job category. However, a small percentage may be recruited from within the state of Connecticut employment pool from other universities.	5% value weight as associate professor positions at CCSU require advanced degrees and relevant/current experience. Most hires are recruited primarily through national searches.
<b>Unemployment in Applicable Labor Market Area</b>	CT Labor Department "Characteristics of Job Seekers Registered with the CT State Job Service" June 2017, Statewide figures line SOC 25.10 Post Secondary Teachers	Department hiring area is national for this job category; normally the hiring at the level of associate professor requires permanent attainment of an associate professor position prior to CCSU appointment. The unemployment data is not utilized.	0% value weight. Positions are filled at this level from those who are currently employed. The unemployed are not a viable recruitment pool.
<b>Promotable/Transferable</b>	2017 CCSU Workforce Analysis by Job Classification: Assistant Professor Rank (Does not include instructor)	Precise figures for computing racial and sexual composition of persons in promotable positions. About half of these positions are filled by promotion from the Assistant Professor level annually via collective bargaining and the promotional and tenure process.	70% value weight. Value weight is higher for promotions due to the promotional and tenure process in place at the university.
<b>OTHER SOURCE</b>	Digest of Ed. Statistics, Table 315.20, Fall 2015: Associate Professor	The hiring area is Nationwide for this job category. Persons currently employed at the associate professor level are a common recruitment pool.	25% value weight. Associate Professor positions at CCSU require advanced degrees and relevant/current experience. Most hires are recruited primarily through national searches. (Table number changed from 264 to 315.20 for the Digest)

FACTOR:	SOURCE CONSULTED:	BASIS OF SELECTION: GEOGRAPHICAL AREA/JOB TITLE:	REASONS FOR WEIGHTING THE FACTOR:
<b>Employment data in the Applicable Labor Market Area</b>	Census 2000 EEO Data Tool, US Total, Education Administrators (119030)	The hiring area is statewide for this job category. Professional non-faculty and related positions are highly competitive and are often recruited statewide from other universities or state agencies, and/or nationally from similar positions/functions.	25% value weight as professional non-faculty positions at CCSU often require advanced degrees and relevant/current (college level) experience. Most hires occur from those currently employed. Slight decrease in 2014 to reflect that most positions are filled by those currently employed in college/university settings.
<b>Unemployment in Applicable Labor Market Area</b>	CT Labor Department "Characteristics of Job Seekers Registered with the CT State Job Service" June 2017, Statewide figures line SOC 25.90: Other Education, Training and Library Occupations.	Department hiring area is statewide/national for this job category; however, statewide unemployment data is utilized. Unemployment figures are used, as some vacancies are filled by the unemployed with relevant skills/experience.	5% value weight. Unemployment figures account for a smaller percentage of hires into this category. Reduced in 2014 to 10% as the majority of positions are filled by those currently employed, and most likely those employed in the college/university setting.
<b>Promotable/Transferable</b>	CCSU Workforce Analysis by Job Classification: Due to the level of skills, degree requirements and previous experience in related positions or field; opportunities for promotions do not exist.	Since nearly 100% of these positions are filled through hires, no promotional group has been identified.	0% value weight. Nearly all positions are filled via hiring of outside persons currently performing related functions.
<b>OTHER SOURCE - IPEDS 2012</b>	US Dept. Ed. National Center for Education Statistics, IPEDS, July 2014: Professional Staff (Non-Faculty) - Table 314.40.	The hiring area is statewide/nationwide for this job category. Professional non-faculty and related positions are highly competitive and are often recruited nationwide from other universities and from similar positions/functions.	70% value weight as professional non-faculty positions at CCSU often require advanced degrees and relevant/current experience. Most hires occur from those currently employed and most often with university/college experience.

FACTOR:	SOURCE CONSULTED:	BASIS OF SELECTION: GEOGRAPHICAL AREA/JOB TITLE:	REASONS FOR WEIGHTING THE FACTOR:
<b>Employment data in the Applicable Labor Market Area</b>	Census 2000 EEO Data Tool, Hartford County LMA, Other Office and Admin, Support Workers (439000)	The hiring area is Hartford County for this job category as most clerical rank positions are filled in closer proximity to the University. Some clerical titles require state examination certification which often requires work history and are often currently employed. Some hires come from those in the same title form other state agencies.	50% value weight as clerical positions require a great deal of clerical skills and experience and most often come from those who are currently employed at the title or with qualifying experience. Modified to reflect increased promotional pool with addition of admin assistants to this eeo category.
<b>Unemployment in Applicable Labor Market Area</b>	CT Labor Department "Characteristics of Job Seekers Registered with the CT State Job Service" June 2017, Htdf County LMA figures line SOC 43.90 Other Office and Admin, Support Workers.	Department hiring area is Hartford County for this job category; Unemployment figures are used, however a slightly smaller percentage of positions are filled through the unemployed.	20% value weight. Unemployment figures account for a slightly smaller % of hires into this category. Modified to reflect increased promotional pool with addition of admin assistants to this eeo category.
<b>Promotable/Transferable</b>	CCSU Workforce Analysis by Job Classification:Secretary 2	Precise figures for computing racial and sexual composition of persons in promotable positions. Almost all positions are filled by Hires in this job title. Some promotions do occur; typically from the level of Secretary 2	30% value weight. Most positions in this category are filled though hires. However, an occasional promotion does occur from the level of Secretary 2. This is new as of 2016 due to consolidation of Administrative Assistant title with All Titles (promotional opportunity from Secretary 2 to Administrative Assistant).

<b>Employment data in the Applicable Labor Market Area</b>	Census 2000 EEO Data Tool, Hartford County LMA, Construction Trades Workers (472000)	The hiring area is Hartford County for this job category. Skilled laborers are most often recruited locally. The titles chosen closely reflect the duties and functions of skilled craft workers at CCSU.	75% value weight as skilled craft positions at CCSU require relevant and applied experience and specific skills. Most positions are filled by those already employed.
<b>Unemployment in Applicable Labor Market Area</b>	CT Labor Department "Characteristics of Job Seekers Registered with the CT State Job Service" June 2017 Hartford LMA figures line SOC 47.20 Construction Trades Workers.	The hiring area is Hartford County for this job category. These positions are most often recruited locally. The titles chosen closely reflect the duties and functions of skilled craft workers at CCSU.	20% value weight as skilled craft positions at CCSU often required relevant experience and specific skills. However, most are filled by those presently employed.
<b>Promotable/Transferable</b>	CCSU Workforce Analysis by Job Classification: General trades workers	Precise figures for computing racial and sexual composition of persons in promotable positions. Almost all positions are filled by hires in this job title. Some promotions do occur from general trades workers	5% value weight. Most positions in this category are filled though hires. However, an occasional promotion can occur from general trades workers.

---Not available.

\1\Includes Ph.D., Ed.D., and comparable degrees at the doctoral level, as well as such degrees as M.D., D.D.S., and law degrees that were formerly classified as first-professional degrees.

\2\Excludes 500 males and 12 females whose racial/ethnic group was not available.

\3\Excludes 714 males and 21 females whose racial/ethnic group was not available.

NOTE: Data through 1990-91 are for institutions of higher education, while later data are for postsecondary institutions participating in Title IV federal financial aid programs. Race

categories exclude persons of Hispanic ethnicity. For 1989-90 and later years, reported racial/ethnic distributions of students by level of degree, field of degree, and sex were used to

estimate race/ethnicity for students whose race/ethnicity was not reported. Detail may not sum to totals because of rounding. Some data have been revised from previously published figures.
