LLA 624 Practicum for Reading Specialist/Literacy Coach I

LLA 626 Practicum for Reading Specialist/Literacy Coach II

The Taskstream account is a requirement for all students in the School of Education and Professional Studies and is used by CCSU to report electronically evidence that our students meet a professional organization's standards for accreditation purposes. CCSU is required by its accrediting body (CAEP) to report data electronically at various points in a student's program, therefore students are not allowed to submit all the evidence only once, at the end of their studies.

Students are required to be registered on Taskstream during the semester they are registered for one or more of the above courses. Students are not required to be registered on and/or use

Taskstream if they are taking a break from their studies or are registered only for courses not listed above.

In order to purchase a Taskstream account you must access your [CCSU Blackboard Learn account](#) and follow these steps:

1. Click on the "Launch Taskstream LTI Tool" link at the lower, left corner. Note: you may have to open in a new window.
2. Click on "Create New Account."
3. Answer on-screen questions. After selecting your university, you will be prompted to select your "school." Please select School of Education and Professional Studies. Under group, select "Students." You must use your CCSU email address when registering.
4. Select the subscription rate that best fits your needs. Although you can pay each semester as you go through the program, it is cheaper to purchase an account for all of the anticipated semesters you are at CCSU.

If you have any questions about this new requirement, please contact your program advisor. An orientation about how to access Taskstream will be scheduled early in Fall 2018 (details will be provided in September).
