The network consists of single head-end feeding the Hybrid Fiber Coaxial (HFC). The network serves approximately 1850 residential and 700 educational drops.

The underground trunk lines share the same conduit and/or tunnels as the campus data network and the telephone distribution network.

The current service provider at CCSU is Apogee. That contract is scheduled to expire June 30, 2018.

2.4 CCSU BLUE TV GENERAL DESCRIPTION

CCSU provides cable service to the entire main campus in academic, non-academic and residential buildings. The method is a HFC distribution system. In most all buildings, cable television service is delivered via single mode fiber (SMF) to a receiver that outputs a coaxial cable (RF) signal to the building’s distribution network. This is done via the use of taps and splitters, amplifiers (as-needed) in each building. Typically this equipment is located within a telecom room or other secured closet. All cable television service to these buildings emanates from a central location on campus known as the Powerhouse (PH). Within the PH there is a headend compromised of two standard 19” telecommunications racks housing a Comm2000 Digital System, fiber transmission, optical splitters, a VideoPropulsion Floodgate and various smaller hardware technologies to provide for the distribution of the cable service to the campus. The PH building receives the signals from satellite dishes and off-air antennas located atop the University Energy Center (EC). Within the EC, six optical transmitters are installed to allow for transfer of the signals to the PH.

See Attachment B for diagrams of the existing distribution system

All digital services are provided in “clear QAM”, quadrature amplitude modulation, format that does not require the use of set top boxes.

CCSU provides a robust lineup of channels <see Attachment A> to its campus, including multiple regional sports networks, premium channels and additional over the top (OTT) services including HBOGO, MAXGO and Showtime
Anytime. Students authenticate into all OTT services using their CCSU issued BlueNet ID and password. CCSU provides file uploads of permissible housing information and connection to the campus lightweight directory access protocol (LDAP) to allow for student authentication to utilize OTT services.

CCSU maintains four (4) local origination channels on the cable system. Three (3) of these are located in the Elihu Burritt Library building and are housed in the Media Center department master control room. These channels are returned to the PH via a serial digital interface (SDI) fiber transport system and then integrated into the campus lineup on channels 23.1, 23.2 and 23.6. A fourth and final local channel (mtvU) originates from a dedicated satellite dish on the roof of the EC and is transported via fiber to the PH where it is integrated into the campus lineup on channel 23.5. CCSU receives the Connecticut Network (CT-N) via the Connecticut Education Network (CEN) connection between CCSU and the CT-N facility in Hartford, CT.

2.5 TECHNICAL SPECIFICATIONS/REQUIREMENTS

Vendor will create (1) one head-end for the system which will be located in a designated building to be approved by the University. Any satellite dishes utilized as part of this system will be located on a secondary building. All programming services are to be received at this head-end location by the selected vendor and distributed campus-wide to all designated locations. The format and signal specifications for the video feed are detailed in Section 2.5 Technical Requirements. The vendor will provide the service and maintenance of the system’s head end including any needed signal amplification equipment; installation of digital satellite antenna(s) and/or interface systems needed for the reception of the video signals to be distributed.

The University will not be responsible for blocking or filtering channels at the head-ends. Only equipment necessary for the reception or re-processing of the University’s selected channels and system monitoring will be permitted in the head-ends. The University requires the ability to add, delete or change programming channels with thirty (30) days notice to the selected firm. The system must be “plug and play” at the outlet for all digital delivered services. No set-top converter boxes will be accepted for cable ready televisions to receive mandatory services. If a student requires a set-top converter due to a non-cable ready TV, the University student will purchase them from a recommended list of vendors.

The University requires that the Connecticut Network (CT-N) be included on the University cable system.

Vendor must agree to offer the current OTT services listed below to CCSU residential students and University test accounts utilizing the University BlueNet ID system and campus lightweight directory access protocol (LDAP). If requested, CCSU will provide and upload a file that lists current student housing verification. Future OTT services will be considered as they are made available to the campus by the programming networks.

The university reserves the right to adjust the channel line-up with 30 days notice to vendor. Vendor will supply the university with a minimum of five reserved channels.

### Table 2, Optional Programming Services

List optional channels that the University may or may not choose to purchase. The University may choose to purchase none, some, or all of the channels listed in Table 2. The University's evaluation of information from firms for channels listed in Table 2 will be completely independent from the evaluation of the information from firms for the mandatory channels listed in Table 1. For optional programming services:

1. The University will decide which, if any, of the Optional Programming Services listed in Table 2 it wishes to purchase.
2. The University reserves the right to obtain programming from multiple firms.
3. The University will have the flexibility to group and structure the channel lineup allocation as needed.

**On-Line Channel Guide**

Vendor must provide access to the University’s channel listing on the two most widely used channel listing services, www.tvguide.com and www.zap2it.com, featuring three-hour increments of scheduling information on the services broadcast over the system. The students must be able to view programming information for a particular time or channel by visiting the customized channel listing on the websites. The listing must be updated daily.

#### 2.6 Technical Requirements

The system and services must offer a method of digital video recording (DVR) by way of TIVO compatibility.

The system must be compliant with the June 2009 FCC digital mandate.

CCSU realizes there will be vast technological changes during the agreement. The vendor should propose ways to enhance and recommend appropriate, cost-effective service improvements. In response to this requirement, vendors should state and describe how they propose to make these changes and what steps will be taken to keep up with technological advancements.

#### 2.7 Infrastructure

The vendor will coordinate and design the infrastructure for service delivery as required. The Infrastructure will become and remain the property of the University.

Utilizing a static IP address at the head-end(s) provided by the university, Vendor will provide a monitoring device in the head-end(s), which will allow for remote channel and equipment monitoring and examination from Vendors headquarters. In the event an alternative monitoring solution is available, Vendor will describe their preferred solution in the proposal. Details must be provided by vendor regarding access via the internet, communication ports, headquarter IP address limitations, software or web based. Vendor will provide a full warranty on all provided equipment for the entire term of the agreement. Vendor will provide parts and labor in order to maintain the entire system without additional cost to the University. Vendor shall maintain all technical documentation describing the operation and delivery of TV programming on campus including schematic drawings and performance test results. Vendor is responsible for reviewing and updating all documentation and maintaining the documents in electronic form, providing access and transmittal to the university.

After completion of all work, the workmanship will be reviewed and approved by a University representative. All work rejected as unsatisfactory shall be corrected prior to the final inspection and acceptance and no payment will be made prior to this approval.

Section 3. Proposal

Proposers shall have sufficient experience, resources and qualified personnel to adequately perform the prescribed service. Proposers shall submit evidence of qualifications as requested in the solicitation.

If significant errors are found in the proposal, or if the proposal does not substantially conform to the requirements of the RFP, that proposal may be considered unresponsive and rejected.

Proposals submitted unsigned or after the due date and time shall be rejected.

The following requirements are presented as a minimum expectation for any Contractor’s proposal to be considered and are to be addressed in the Contractor’s response. If the proponent cannot meet or exceed these requirements, the University reserves the right to exclude their proposal from evaluation without further discourse or may enter into negotiations to mitigate any variances.

3.1 Proposal Preparation:

a. Proposals shall be signed by an authorized representative of the Proposer. All information requested shall be submitted and failure to submit all information requested may result in your proposal being considered non-responsive and therefore, rejected.

b. Proposals should be prepared simply and economically, providing a straightforward, concise description of capabilities to satisfy the requirements of the RFP. Emphasis should be on meeting all requirements and content clarity.

1) Proposals shall be submitted following the sequence of the questions asked in section 3.3 and should be identified as a response to the specific question. All information which pertains to that question should be placed in that section.

2) All pages of the proposal should be numbered. CCSU requests that Proposers use the section numbers, letter and headings from the RFP. Proposals that are not organized by section number and question corresponding with each section separated by a tab, risk elimination if the evaluators are unable to find where the RFP requirements are specifically addressed.

3) The proposals should contain a table of contents that identifies each section and page numbers.

c. In the interest of supporting CCSU’s initiative to reduce waste and extraneous use of natural resources, CCSU is requesting the following:

1) All proposals should be submitted on two-sided recycled paper, where possible.

2) Proposers should refrain from using excessive and unnecessary packaging when shipping or mailing their responses.
Any RFP response, subsequent submittals and resultant Contract are subject to Freedom of Information Act (FOIA) Connecticut Generate Statute (CGS) Section 1-218. Ownership of all data, material and documentation originated and prepared for the University pursuant to the RFP shall belong exclusively to the University. Trade secrets or commercial or financial information given in confidence submitted by a Proposer shall not be subject to public disclosure; however, the Proposer must clearly identify on every page of its proposal the information that it considers confidential. In addition, a written notice must be provided that identifies the rationale for the confidentiality of the information and if the information is subsequently requested, the pages marked confidential will be handled in accordance with FOIA Statute.

Labeling the entire contents of a proposal “confidential” is not acceptable and may result in rejection of the proposal.

3.2 Proposer Presentation:

As part of the evaluation process, the University reserves the right to request a formal presentation by any or all qualified Proposers and to visit locations for which the Contractor currently operates. The Purchasing Department shall schedule the presentations following committee review of the proposals. Proposers should be prepared to discuss and substantiate all areas of their proposals. This is a fact finding and explanation session only and does not include negotiation.

The Proposer shall be responsible for all of its costs associated with its presentation.

3.3 Program Proposal

Respondents are to address each of the following sections separately and in the sequence provided below. The University requests the responses focus on realistic and attainable plans, programs and financials and how these will be of most direct benefit to the CCSU community. Proposers should be prepared to explain, support, and expand on any proffered plans, programs and financials.

It is the Proposer’s responsibility to ensure that ALL INFORMATION REQUESTED BELOW IS INCLUDED WITH YOUR PROPOSAL and responded to IN THE SEQUENCE PROVIDED unless specifically identified.

a) Include a complete statement of work detailing anticipated approach to installing all necessary hardware and cabling and performing all programming, including realistic timeline. Specifically address your plans to affect a seamless transition from the existing service to any new or expanded service based on the expiration of the current contract, including potential service down time, effects on customer service/signal delivery, etc.

b) Provide your estimation as to how you would provide a seamless transition from the existing services to new or updated services based on the expiration of the contract timetable

c) Provide in detail any space or hardware requirements that your system would require CCSU to be responsible for providing. Include server space, satellite dishes, etc.

d) Complete Appendix VII, Programming Pricing

e) Provide the requested information on the following optional services. Use the following lettering sequence for each. Use separate pages for each lettered response.

   i. Optional programming
   Provide pricing for each optional program listed in Section 2.5 Table 2. This should be provided on a per-channel basis. If company needs to offer or deliver some of these channels as package(s), that information must be made clear in the proposal.

   ii. Optional Lineup Guide Channel:
   Provide pricing for and describe any available Lineup Guide channel.
iii. Optional IPTV:
   Describe the costs involved with converting at least ten (10) channels to h.264 format for IPTV delivery over the university’s existing IP Network to an open source or various third party desktop clients.

iv. Optional Emergency Notification Services:
   Describe the costs associated with Emergency Notification services available over the television channels.

v. Optional foreign language services for campus wide delivery:
   CCSU has a number of international students living in campus residence halls. CCSU would be interested in offering some level of international programming to these students. Respond as to whether this option is available and explain in detail what may be offered and indicate the costs to deliver selected foreign language channels for campus wide delivery.

vi. Direct Premium Services
   CCSU may be interested in offering its students options to directly contract with the service provider for premium services (pay per view, etc). Respond as to whether this option is available and explain in detail what may be offered and how the program would work for the students and any effect it would have on CCSU.

f) Provide names, titles, and phone numbers for all key personnel, including primary account representative and technical support.

g) Complete Appendix I with contact information for five references of clients for which your company provided television programming services similar to those described herein.

Section 4. Proposal Evaluation

The evaluation of proposals received in response to the RFP will be conducted comprehensively, fairly, and impartially. A committee will be selected to evaluate the qualifications/experience and program/operational. The financial proposals will be scored using a predetermined formula. A Contract will be awarded to the responsive, responsible Contractor whose proposal was determined in writing to be the most advantageous to the University. All Contractors submitting proposals concur with this method of award and will not, under any circumstances or in any manner, dispute any award made using this method.

An initial evaluation of all proposals received shall be conducted to ensure the proposals are responsive in form to the RFP requirements.

Evaluation Criteria

• Demonstrated ability of the proposed system to meet CCSU standards and requirements as outlined in this RFP.
• Demonstrated understanding of the services requested

**Review of References:** Each proposer is required to provide a list of references as requested above. At minimum, two educational institutions must be of the size and scope of the University. Please include name, title, telephone number and e-mail address of a contact person at each institution. The University reserves the right, but is not obligated to, contact and review the program of any institution by any proposer as a reference.

Appendix IV. ADMINISTRATIVE FORMS
COMMISSION ON HUMAN RIGHTS AND OPPORTUNITIES
CONTRACT COMPLIANCE REGULATIONS
NOTIFICATION TO BIDDERS (rev 09/17/07)

The contract to be awarded is subject to contract compliance requirements mandated by Sections 4a-60 and 4a-60a of the Connecticut General Statutes; and, when the awarding agency is the State, Sections 46a-71(d) and 46a-81l(d) of the Connecticut General Statutes. There are Contract Compliance Regulations codified at Section 46a-68j-21 through 43 of the Regulations of Connecticut State Agencies, which establish a procedure for awarding all contracts covered by Sections 4a-60 and 46a-71(d) of the Connecticut General Statutes.

According to Section 46a-68j-30(9) of the Contract Compliance Regulations, every agency awarding a contract subject to the contract compliance requirements has an obligation to “aggressively solicit the participation of legitimate minority business enterprises as bidders, contractors, subcontractors and suppliers of materials.” “Minority business enterprise” is defined in Section 4a-60 of the Connecticut General Statutes as a business wherein fifty-one percent or more of the capital stock, or assets belong to a person or persons: “(1) Who are active in daily affairs of the enterprise; (2) who have the power to direct the management and policies of the enterprise; and (3) who are members of a minority, as such term is defined in subsection (a) of Section 32-9n.” “Minority” groups are defined in Section 32-9n of the Connecticut General Statutes as “(1) Black Americans . . . (2) Hispanic Americans . . . (3) persons who have origins in the Iberian Peninsula . . . (4) Women . . . (5) Asian Pacific Americans and Pacific Islanders; (6) American Indians . . .” An individual with a disability is also a minority business enterprise as provided by Section 4a-60g of the Connecticut General Statutes. The above definitions apply to the contract compliance requirements by virtue of Section 46a-68j-21(11) of the Contract Compliance Regulations.

The awarding agency will consider the following factors when reviewing the bidder’s qualifications under the contract compliance requirements:

(a) the bidder’s success in implementing an affirmative action plan;
(b) the bidder’s success in developing an apprenticeship program complying with Sections 46a-68 to 46a-68-17 of the Administrative Regulations of Connecticut State Agencies, inclusive;
(c) the bidder’s promise to develop and implement a successful affirmative action plan;
(d) the bidder’s submission of employment statistics contained in the “Employment Information Form”, indicating that the composition of its workforce is at or near parity when compared to the racial and sexual composition of the workforce in the relevant labor market area; and
(e) the bidder’s promise to set aside a portion of the contract for legitimate minority business enterprises. See Section 46a-68j-30(10)(E) of the Contract Compliance Regulations.

INSTRUCTIONS AND OTHER INFORMATION

The following two (2) sided BIDDER CONTRACT COMPLIANCE MONITORING REPORT must be completed in full, signed, and submitted with the bid for this contract. The contract awarding agency and the Commission on Human Rights and Opportunities will use the information contained thereon to determine the bidders compliance to Sections 4a-60 and 4a-60a CONN. GEN. STAT., and Sections 46a-68j-23 of the Regulations of Connecticut State Agencies regarding equal employment opportunity, and the bidders good faith efforts to include minority business enterprises as subcontractors and suppliers for the work of the contract.

This notice is provided under the authority of Connecticut General Statutes 9-612(g)(2), as amended by P.A. 07-1, and is for the purpose of informing state contractors and prospective state contractors of the following law (italicized words are defined below):

Campaign Contribution and Solicitation Ban
No state contractor, prospective state contractor, principal of a state contractor or principal of a prospective state contractor, with regard to a state contract or state contract solicitation with or from a state agency in the executive branch or a quasi-public agency or a holder, or principal of a holder of a valid prequalification certificate, shall make a contribution to, or solicit contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of Governor, Lieutenant Governor, Attorney General, State Comptroller, Secretary of the State or State Treasurer, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee;

In addition, no holder or principal of a holder of a valid prequalification certificate, shall make a contribution to, or solicit contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of State senator or State representative, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee.

Duty to Inform
State contractors and prospective state contractors are required to inform their principals of the above prohibitions, as applicable, and the possible penalties and other consequences of any violation thereof.

Penalties for Violations
Contributions or solicitations of contributions made in violation of the above prohibitions may result in the following civil and criminal penalties:
Civil penalties--$2000 or twice the amount of the prohibited contribution, whichever is greater, against a principal or a contractor.

Any state contractor or prospective state contractor which fails to make reasonable efforts to comply with the provisions requiring notice to its principals of these prohibitions and the possible consequences of their violations may also be subject to civil penalties of $2000 or twice the amount of the prohibited contributions made by their principals.

Criminal penalties—Any knowing and willful violation of the prohibition is a Class D felony, which may subject the violator to imprisonment of not more than 5 years, or $5000 in fines, or both.

Contract Consequences
Contributions made or solicited in violation of the above prohibitions may result, in the case of a state contractor, in the contract being voided.

Contributions made or solicited in violation of the above prohibitions, in the case of a prospective state contractor, shall result in the contract described in the state contract solicitation not being awarded to the prospective state contractor, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.

The State will not award any other state contract to anyone found in violation of the above prohibitions for a period of one year after the election for which such contribution is made or solicited, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.
