Sign Up for MAKING CONNECTIONS 2 Now!

Hands-on Activities
Learn about digital electronics, computers, and coding by building projects with an Arduino (microcontroller). Kits will be yours to keep!

Teamwork
Work in teams to learn the value of collaboration and project management.

Acquire 21st Century Skills
Develop your interest and readiness for participation in STEM related careers.

WHO?
CCSU TRiO ETS program enrolled high school students, with interest in STEM activities. There is no technology experience necessary, only a positive and hardworking attitude.

WHAT?
Learn to assemble and program an Arduino powered Smart Car. Participants may be eligible to receive 0.5 NBHS elective credit.

WHEN?
Saturdays during February 4, 11, 18, 25 and March 11, 2017 from 9:00 am - 4:00 pm.
Lunch Included.

WHERE?
CCSU Institute of Technology Business Development (ITBD) Downtown Campus.
Located at 185 Main Street, Computer Lab on floor 3.

HOW?
This program is offered at NO COST to you. Sign up now at Registration Link: www.ctsu.edu/trio.
For further information contact Thomas Menditto at menditto@ccsu.edu or call (860) 832-2215.
TRiO ETS is funded by the U.S. Department of Education 2016-17 grant.
