Dear Site Supervisor,

Thank you for agreeing to assist in the field placement and clinical training of our master’s level graduate student who is enrolled in CNSL 503 Supervised Counseling (i.e., professional counseling practicum). The practicum experience is considered to be among the most critical elements in the student's program. Practicum students learn how to conduct themselves consistent with the standards of their profession, critique their own work, learn from the constructive feedback, and develop an increased awareness of their relationship and interactions with fellow workers, supervisors, and clients. Your decision to accept a student reflects your commitment to the counseling profession and to maintaining high standards in the preparation of professional counselors. The information provided below is intended to assist you in your role as a clinical supervisor.

**PRACTICUM STUDENT EXPECTATIONS:**

**HOURS:** Students complete supervised counseling practicum experiences that total a minimum of 100 clock hours over a full academic term that is a minimum of 10 weeks. The following is a description and breakdown of the contact hours (direct and indirect) and supervision hours (on-site and campus) that are required, at a minimum, during the course of one academic semester:

- Practicum students complete a minimum of 40 clock hours of direct service (SEMESTER) with actual clients (PRACTICUM SITE) that contributes to the development of counseling skills.

- Practicum students have weekly interaction with supervisors that averages one hour per week of individual supervision throughout the practicum by a site supervisor (PRACTICUM SITE) who is working in consultation on a regular schedule with a counselor education program faculty member in accordance with the supervision agreement.

- Practicum students participate in an average of 1½ hours per week of group supervision (CAMPUS) on a regular schedule throughout the practicum. Group supervision must be provided by a counselor education program faculty member.

<tr>
<td><strong>TOTAL HOURS</strong></td>
<td>100 (minimum)</td>
</tr>
</tbody>
</table>
The student will maintain an hourly log, which you will review/sign at the end of each month.

- **DIRECT HOURS:** Per the Council on Accreditation of Counseling and Related Educational Programs (CACREP), direct service hours are defined as the “supervised use of counseling, consultation, or related professional skills with actual clients (can be individuals, couples, families, or groups) for the purpose of fostering social, cognitive, behavioral, and/or affective change. These activities must involve interaction with others and may include: (1) assessment, (2) counseling, (3) psycho-educational activities, and (4) consultation. The following would not be considered direct service: (1) observing others providing counseling or related services, (2) record keeping, (3) administrative duties, (4) clinical and/or administrative supervision.” All other activities are considered indirect service hours.

- **INDIRECT HOURS:** The indirect client contact hours are attained by participating in an average of 1½ hours of in-class/group supervision per week AND meeting for an average of one hour each week with your assigned on-site clinical supervisor (supervision hours are tracked separately from other forms of indirect hours). The balance of indirect hours will be obtained through indirect counseling activities assigned by the field site (e.g., preparing records, writing clinical notes, attending treatment team meetings, participating in professional trainings, etc.).

- **PROFESSIONAL AND ETHICAL CONSIDERATIONS:** Trainees are expected to be socialized into the important dimensions of their new identity as professional counselors. They have taken a course in ethics for counselors and are aware of their responsibility with respect to confidentiality and the importance of protecting client records. They should have a current copy of the “American Counseling Association Code of Ethics” readily available during supervision and at all other times. They should also become familiarized with your agency’s specific policies pertaining to ethical, legal, and administrative procedures. They are expected to follow the agency’s protocol regarding appropriate dress, decorum, and adherence to established work schedules.

- **OTHER ADMINISTRATIVE REQUIREMENTS:** By the time students begin the clinical experience they will have obtained professional liability insurance and have met university requirements for immunizations and tuberculosis testing. They will also have met with you and completed the “Practicum Agreement” that outlines the responsibilities of both the university and the training agency. This form can be found via the counseling program’s web site:

  [https://www.ccsu.edu/ceft/counselorEducation-clinicalProfessionalCounseling.html](https://www.ccsu.edu/ceft/counselorEducation-clinicalProfessionalCounseling.html)

Please let your student know if your agency has any additional requirements.

- **GOAL STATEMENT AGREEMENT:** The student will ask for your assistance in completing a goal statement that outlines the student’s personal learning objectives.

- **SUPERVISION AGENDA:** Your supervisee will prepare a one- to two-page agenda for each weekly face-to-face supervision session with you. The agenda will address the student’s concerns and questions. The student will share the agenda with you at the beginning of each
session. The student understands that you may have additional items to add to the supervision agenda.

- **AGENCY ANALYSIS / INTERVIEW PAPER**: All practicum students are required to complete a brief paper that provides an overview of their clinical site. The paper will address such topics as: (a) the agency’s mission, values, goals, and objectives; (b) management style and hierarchical structure; and (c) successes and challenges. The student will be asking you questions about your agency and may wish to interview other staff members with your approval.

- **RECORDED COUNSELING SESSIONS**: The student is expected to audio or videotape a minimum of one individual counseling session for review with me on campus. The student is aware of the need to obtain client consent prior to taping and to abide by your agency’s rules in this regard. The recorded sessions will be deleted/destroyed after the end of each academic semester.

**AGENCY EXPECTATIONS**: Most of the agency responsibilities are outlined in the “Practicum Agreement.” The student will need adequate clinical and administrative workspace, and a place to store confidential material. The practicum student will need to be provided with ample opportunity to engage in a variety of counseling activities under supervision in order to log the number of required clinical hours.

- **SITE SUPERVISOR QUALIFICATIONS**: Per the Council on Accreditation of Counseling and Related Educational Programs (CACREP) standards, site supervisors should have (1) a minimum of a master’s degree, preferably in counseling, or a related profession; (2) relevant certifications and/or licenses; (3) a minimum of two years of pertinent professional experience in the specialty area in which the student is enrolled; (4) knowledge of the program’s expectations, requirements, and evaluation procedures for students; and (5) relevant training in counseling supervision.

- **FACE-TO-FACE SUPERVISION**: In addition to receiving supervisory oversight while the student is working, the weekly supervisory conference is one of the most critical aspects of your supervisee’s training experience. While you will be providing your supervisee with feedback on an ongoing basis, the one-hour weekly supervisory conference allows both you and the student to prepare and reflect on the training experience. It also provides you with an opportunity to examine student work using audio/visual tapes, observation or live supervision. Because of the importance of these meetings, we strongly recommend that they be held at a regularly specified time. As we pointed out above, the student will prepare an agenda for each of these meetings.

- **SITE SUPERVISOR’S EVALUATION OF STUDENT**: In addition to you being a supervisor, mentor, and advocate to your trainee, you will also have an evaluative role. Our program will forward for your completion an ONLINE midterm and final evaluation of the student’s performance. Your evaluation will figure prominently in the student’s final grade. We encourage supervisors to conduct a mid-semester evaluation using the same form. This will allow the student adequate time to show improvements based on your supervisory feedback.
• **ONLINE CLINICAL SUPERVISOR TRAINING:** In accordance with our CACREP accreditation standards for site supervisor preparation, we have developed an online clinical supervisor training which all site supervisors are required to complete. There are five brief modules covering the CCSU and CACREP requirements for supervision of program students, including introduction of clinical supervision formats, techniques, models, and issues in supervision. A separate email with a training link will be sent to you later in the semester, and all supervisors are required to complete the training **within 30 days of receiving the link** (we anticipate the total time to complete the modules will be less than two hours).

**UNIVERSITY/COUNSELOR EDUCATION PROGRAM EXPECTATIONS:**

• **WEEKLY SEMINAR:** The course professor will be meeting with the practicum students in a weekly seminar class. During the seminar, students will have an opportunity to discuss their experiences with each other as well as conduct case presentations.

• **SITE VISITS:** The course professor will be contacting you by phone and/or email biweekly to discuss the student’s progress and address your questions and concerns. The professor will also be available for consultation at any time.

On behalf of Central Connecticut State University and the Department of Counselor Education and Family Therapy, we thank you for your role in training future generations of competent and ethical professional counselors.

Sincerely,

*Dr. Reginald W. Holt*

CLINICAL PROFESSIONAL COUNSELING SITE PLACEMENT AGREEMENT
Department of Counselor Education and Family Therapy

Course:
- CNSL 503 Supervised Counseling (i.e., Clinical Professional Counseling Practicum)

Student Information:
- Name: __________________________________________________________
- Phone #: _______________________________________________________
- CCSU E-mail Address: ____________________________________________

Site Location/Contact Information:
- Agency/Organization Name: _________________________________________
- Street Address: ___________________________________________________
- City: ___________________________ State: __________ Zip Code: __________
- Phone #: ______________________ Website: __________________________

Site Supervisor:
- Name: ________________________________
- Title/Position: ____________________________________________________
- Phone #: ____________________________ Fax #: _________________________
- E-mail: __________________________________________________________

Practicum Instructor/Professor:
- Name: ________________________________
- Title/Position: ____________________________________________________
- Phone #: ____________________________ Fax #: _________________________
- E-mail: __________________________________________________________

Practicum Term/Hours/Type:
- The clinical field experience will occur during the following time period (specify month/year):
  - _______________ through _______________
- The clinical field experience will occur for the following number of hours each week:
  - _______________
- The clinical field experience will involve the following levels of care/client populations:
  - Level(s) of Care:
    - _______________
  - Client Type/Age and Diagnostic Population(s):
    - _______________
Field Placement Expectations and Activities:

Within the resources and needs of the clinical field site, the student will be provided with experience in as many of the activities described below in sufficient amounts to allow an adequate evaluation of the student’s level of competence in the designated activity:

- Individual counseling and group counseling (leading or co-leading) of clients receiving services for mental health, addictions recovery, and/or clinical rehabilitation needs.
- Intake interviews and comprehensive biopsychosocial assessments
- Testing (administration, analysis, interpretation of results)
- Report writing, record keeping, treatment planning, treatment summaries, aftercare planning
- Consultation, referrals, professional team collaboration
- Participation in case conferences, treatment team discussions, staff meetings
- Career/vocational/rehabilitation/gerontology counseling
- Weekly individual supervision
- Group or peer supervision
- Psychoeducational activities
- Participation in agency orientation sessions (including policies and procedures)
- Contact and collaboration with community referrals and resources
- Participation in administrative support activities and routine guidance systems management (e.g., assistance with students’ schedule, completing administrative forms, etc.)
- Other: ______________________________________________________

Additional Comments (if applicable):
