ISBN: 9789089791085

By the end of World War I, an independent Polish state had re-emerged on the map after an absence of 123 years. This was a very complicated process and involved many factors as well as the dynamics caused by the war. One of the principal actors was the United States. Using an enormous amount of unpublished material, the author reconstructs the vital role of the United States in the Rebirth of Poland.
