

Power Apps Installation Instructions

Company Portal Instructions (Window 11)

Access the company portal by typing “company portal” in the search box, then click to open:

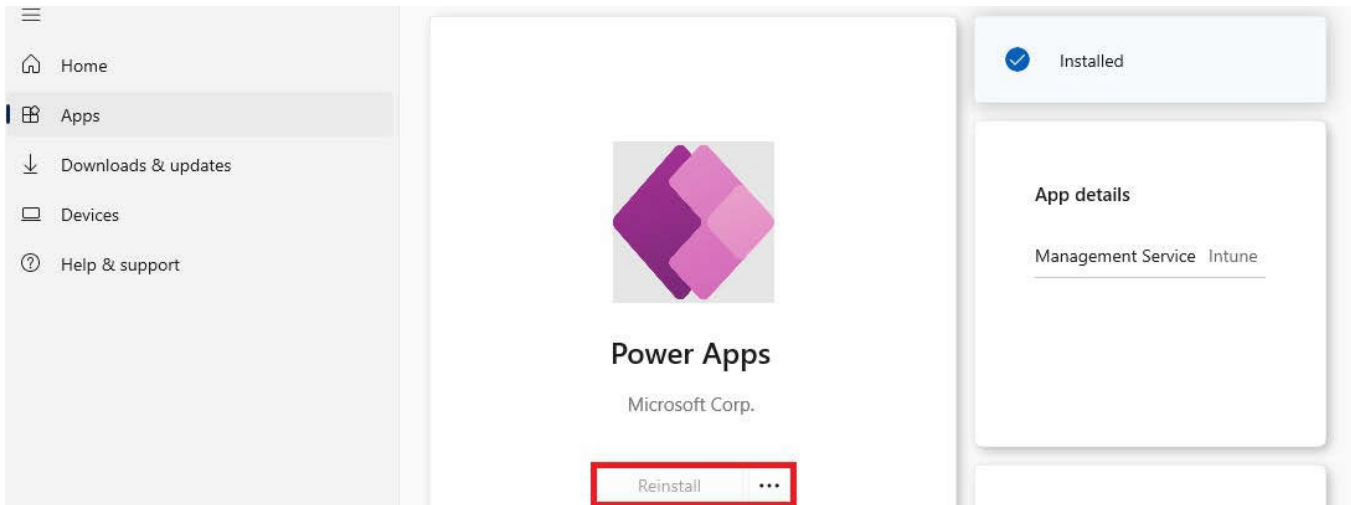

Search for the program; click on “Apps” in the toolbar on the left and scroll to locate or type “Power Apps” in the search bar at the top and hit enter.

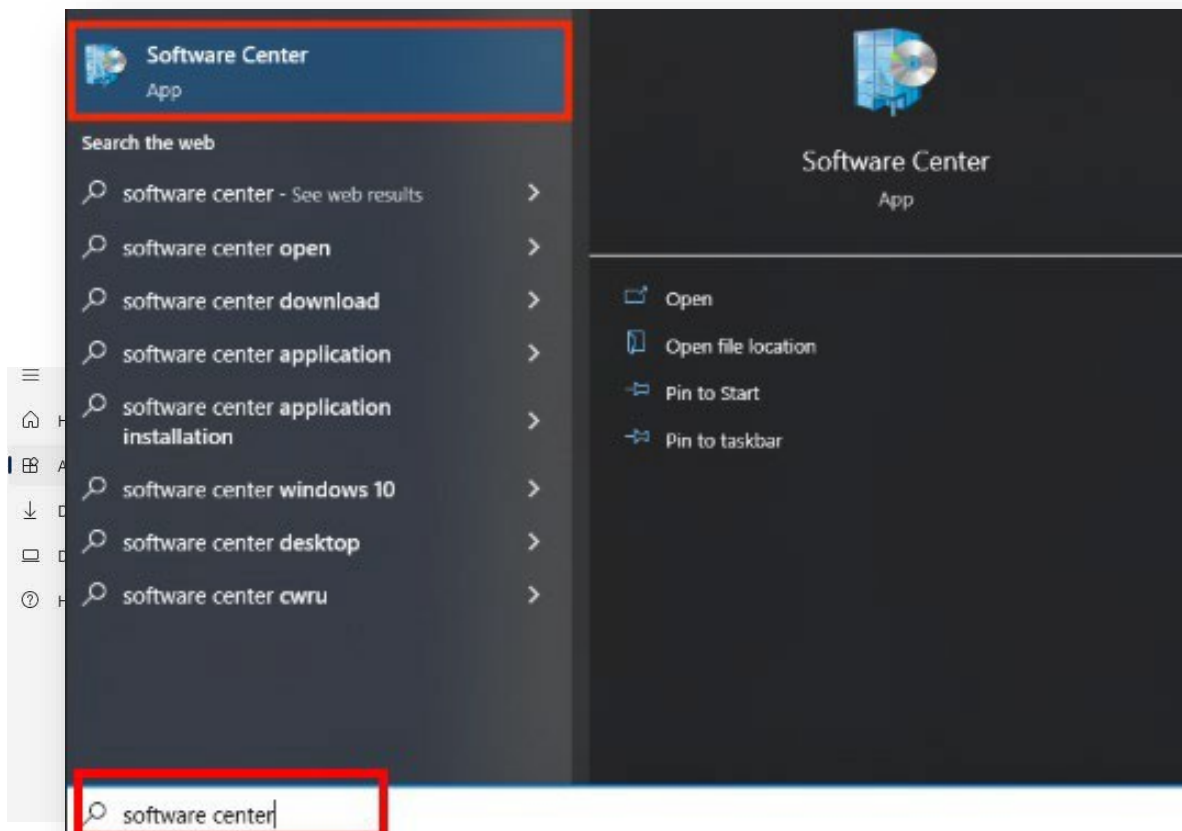

Power Apps Installation Instructions

Click on the icon to open and install the software.

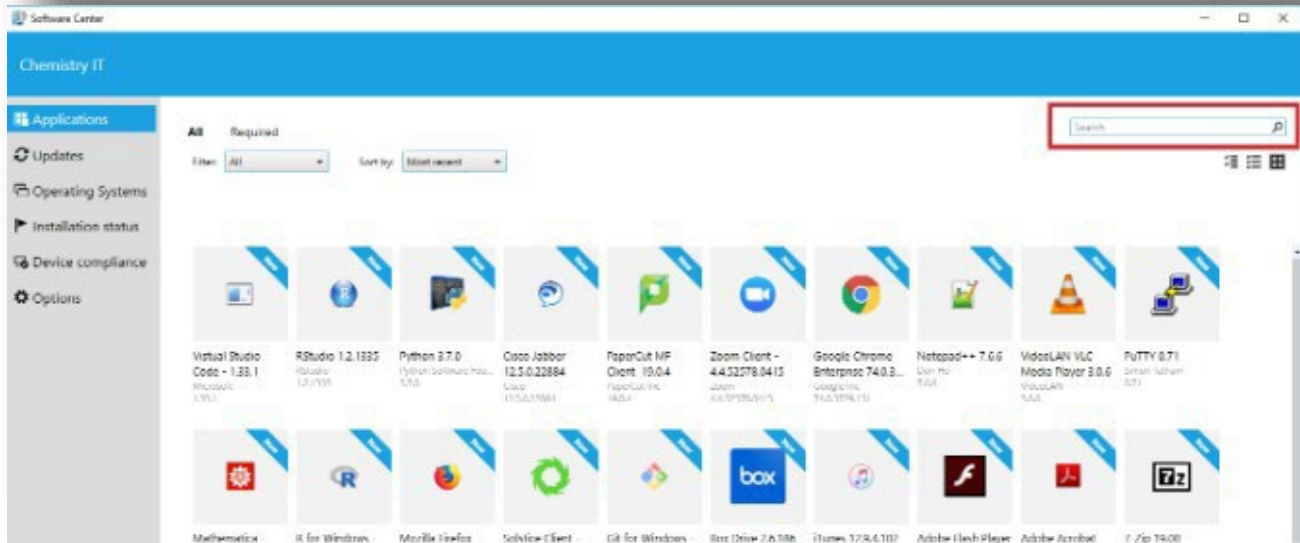

Software Center Instructions (Window 10)

Access the software center by typing “software center” in the search box, then click to open.

Power Apps Installation Instructions

Scroll to find Power Apps or use the search box in the upper right corner.

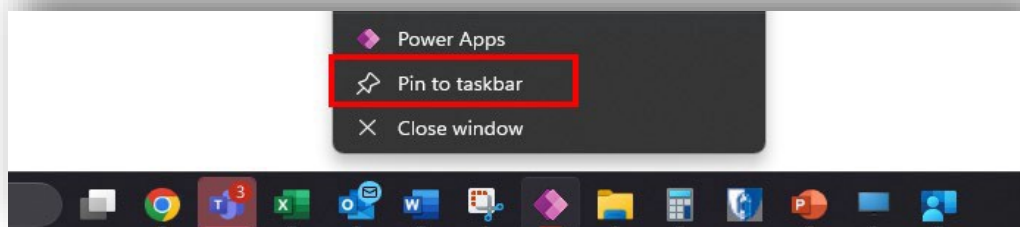

Once the program is located, click to open, then click “install” to download.

Final Step

Once installed, locate Power Apps and open it. For easier access, pin the program to the taskbar by right clicking the icon, then selecting “pin to taskbar”.

Troubleshooting Power Apps Access

If you do not see Power Apps in your company portal or software center, please contact the IT Helpdesk at x21720.
