

The conclusion for conventional arguments wraps up the essay by expressing the main point with renewed perspective. It also summarizes key supporting points to reinforce how the thesis was supported. Keep in mind that intros and conclusions for other fields, purposes, and genres require different components for their respective aims. Finally, it leaves the reader with a final thought, insight, or broader connection to give the essay a sense of closure and significance. Complete the steps below to draft your conclusion.

### Conclusion for a Film/Play Analysis

[1] Baz Luhrmann's *Romeo + Juliet* stands as a landmark in Shakespearean adaptation, reminding audiences that classical works can be made accessible without losing their original language. [2] The film's commercial success can be largely attributed to its deliberate appeal to teenage viewers in the late 1990s—a demographic often alienated by Shakespeare's complex language. [3] By leveraging the unique storytelling tools of cinema—visual cues, music, and modernized settings—Luhrmann bridged the gap between Elizabethan drama and contemporary youth culture. This strategy is clearly demonstrated in the film's opening sequence, which reimagines Act 1, Scene 1 with a fast-paced, stylized presentation designed for modern western audiences. In doing so, the film not only revitalized interest in Shakespeare but also paved the way for future adaptations to balance fidelity to the text with the need for cultural relevance. [4] Ultimately, *Romeo + Juliet* reveals that honoring a classic does not require preserving it in its original form, but rather finding new ways to make its timeless themes resonate across generations.
