

LIST OF TABLES

		PAGE
Table 1.	Detection and low resolution mapping of lethal mutations.....	33
Table 2.	Comparison of the recombination fraction displayed by inbred BTBt versus hybrid double heterozygotes.....	37
Table 3.	Deletion mapping crosses and progeny.....	39
Table 4.	Complementation analyses involving <i>l(17)-2</i>	47
Table 5.	The transmission frequency of <i>l(17)-2</i> is not increased in combination with a partial <i>t</i> haplotype.....	52
Table 6.	Eight recombinant chromosomes are viable in combination with either T^{ori} or T^{hp}	57
