INFORMATION	Employee's Agency:					
	Employee's Job Title:	Department	/Unit			
	Employee's Phone Number:	Employee's	E-mail:			
INSTRUCTIONS TO THE HEALTH CARE PROVIDER	Provide full, complete, and legible answers to all questions. Several questions seek a response as to frequency and duration of a condition, treatment, etc. Your answer should be your best estimate based upon your medical knowledge, experience, and examination of the patient. Be as specific as you can; terms such as "lifetime," "unknown," or "indeterminate" may not be sufficient to determine coverage under the Family and Medical Leave Entitlements.					
This form must be executed by a physician or practitioner whose method of healing is	Limit your responses to the condition for which the employee is or will be absent from work. Do not provide information about genetic tests, as defined in 29 C.F.R. §1635.3(f), genetic services, as defined in 29 C.F.R. §1635.3(e), or the manifestation of disease or disorder in the employee's family members, 29 C.F.R. §1635.3(b).					
recognized by the State.	If additional space is needed, please attach a separate sheet and identify the question number. Please be sure to sign the form on page 3.  Page 5 of this form describes what is meant by a "serious health condition" / "serious illness" under federal FMLA and state family/medical leave.

#### Definitions of a Serious Health Condition

#### Inpatient Care

- An overnight stay in a hospital, hospice, or residential medical care facility.
- Inpatient care includes any period of incapacity or any subsequent treatment in connection with the overnight stay.

#### Continuing Treatment by a Health Care Provider (any one or more of the following)

<u>Incapacity Plus Treatment</u>: A period of incapacity of more than three consecutive, full calendar days, and any subsequent treatment or period of incapacity relating to the same condition, that also involves either:

- Two or more in-person or telemedicine visits to a health care provider for treatment within 30 days of the first day of
  incapacity unless extenuating circumstances exist. The first visit must be within seven days of the first day of incapacity; or,
- At least one in-person or telemedicine visit to a health care provider for treatment within seven days of the first day of
  incapacity, which results in a regimen of continuing treatment under the supervision of the health care provider. For
  example, the health provider might prescribe a course of prescription medication or therapy requiring special equipment.

**<u>Pregnancy</u>**: Any period of incapacity due to pregnancy or for prenatal care.

<u>Chronic Conditions</u>: Any period of incapacity due to or treatment for a chronic serious health condition, such as diabetes, asthma, migraine headaches. A chronic serious health condition is one which requires visits to a health care provider (or nurse supervised by the provider) at least twice a year and recurs over an extended period of time. A chronic condition may cause episodic rather than a continuing period of incapacity.

<u>Permanent or Long-term Conditions</u>: A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective, but which requires the continuing supervision of a health care provider, such as Alzheimer's disease or the terminal stages of cancer.

<u>Conditions Requiring Multiple Treatments</u>: Restorative surgery after an accident or other injury; or a condition that would likely result in a period of incapacity of more than three consecutive, full calendar days if the patient did not receive the treatment.
