Do you create a learning environment in which...

1. **ideas and information are represented in multiple ways?**
   - Your course syllabus clearly describes the content and your expectations of the students.
   - You present information in multiple formats (e.g., lecture, text, graphics, audio, video, hands-on exercises).
   - You begin each lecture with an outline of what will be covered.
   - You summarize key points throughout the lecture, and tie these points to the larger course objectives.
   - You post electronic equivalents of paper handouts and required reading assignments in alternative formats such as audio and video.
   - You employ technologies (e.g., Clickers, Blackboard) that enhance learning.

2. **students can express their comprehension in multiple ways?**
   - You encourage students to demonstrate knowledge and skills in ways other than traditional tests and exams (e.g., written essays, projects, portfolios, journals).
   - Your assessments measure students' achievement of the learning objectives, as they are stated on the syllabus.
   - You incorporate technologies that facilitate class communication and participation.
   - You allow assignments to be submitted electronically.

3. **students have multiple opportunities for engagement?**
   - You express enthusiasm for each topic you teach, and explain its real-world significance.
   - You create a class climate in which student diversity is respected.
   - You give prompt and instructive feedback on assignments.
   - You make yourself available to students during office hours in flexible formats (e.g., face-to-face, email, online chat, telephone).
