

CENTRAL CONNECTICUT STATE UNIVERSITY  
**SUBOG**  
STUDENT UNION BOARD OF GOVERNORS

Dear Student Center Club officer/Building Tenant:

The Student Union Board of Governors wishes you a Happy New Year 2021. These are unusual times. Thank you for your support in masking up to keep our campus safe and abiding by the rules for scheduling space use and filling out the Symptom Tracking form each time you come to campus.

As the governing board for the building we are proud of all the virtual Team meetings you are hosting that contribute toward the community of our campus. The Department of Student Center has created procedures to enable your safe use of the building its services and programming safely. Both the Department of the Student Center and Department of Student Activities staff are available to meet with you on-line and over the phone.

Though the building for the first time in its history is host to a number of academic classes this Winter, it is our desire to keep the word Student in the Student Center honoring the intention of the Center and the role your organizations continue to play in creating community on our campus.

The Student Center has been responding to student requests, you will note the following additions and changes for the Spring Semester. Building hours have been extended as noted on the [Student Center's website](#).

Update to services:

- North entrance has a working hydration station.
- Chromebooks are available again for loan.
- Two printers available for student use near the Information Desk and Alumni Hall.

If coming from off-campus, you must also fill out the <https://ccsu.medicatconnect.com/> daily symptom survey tracker before coming to campus.

It is our observation that CCSU Student Leaders have presented the Worlds Challenges with a Formidable Foe. In other words, you all have this! We hope you are safe and well.

Sincerely,

Moise Mocket (Senior Social Work Major)

Chairperson Student Union Board of Governors 2021
